European Society of Oncology Pharmacy (ESOP)

Egyptian Foundation of Clinical Pharmacy (EFCP)

Regional Oncology Pharmacy Conference

3 - 4 May, 2019
Welcome Message

Dear Friends and Colleagues,

We welcome the Egyptian Foundation of Clinical Pharmacy EFCP as the European Society of Oncology Pharmacy ESOP member in Egypt. EFCP has recognized the principles that guide our commitment. We advocate that cancer patients get the best possible support from our members. As oncology pharmacy is a big step forward and education is needed in almost all countries, we have developed the curriculum for specialization in this area, the EUSOP (European Specialization in Oncology Pharmacy).

In this context, training and research are our main goals, which also relate to the development of the Essential Requirements and Guidelines. Last year, for example, we developed the 6th version of the Quality Standard for Oncology Pharmacy Service (Quapos 6), for which, as well as for specialization outside the borders of the European Union, there is interest and need for exchange in many countries. We would be lucky if they would take over the patronage patron for the next ESOP regional Conference in Cairo on May 3rd and 4th 2019.

With best regards,

Klaus Meier
